Hi Misty, the County sent us an exception report for Highland Park. These are parcels that the County has indicated that they will not bill for 2018.

If you'll remember, exception reports are different than parcel change reports, which indicate a parcel change. In this case, the parcels are not necessarily changing, it's just that for various reasons the County will not send a property tax bill for these parcels for the coming year. We have moved the parcels to the direct bill list, for billing later this year.

Nothing needs to be done on your end, this is for information only.
